Task 5: Density Curve Sketching

1.62 p63 **10 points**

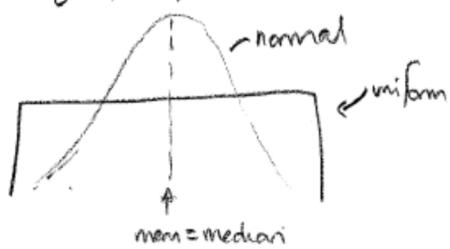
1.63 **15 points**

1.64 **15 points**

Task 5: Density Curve Sketching

1.62

(a) Symmetric, NOT normal



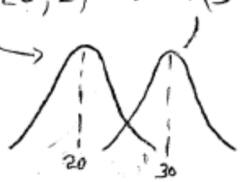
many other possibilities: more peaked, less peaked, bimodal, ...

(b) RIGHT skewed

1.63 $N(20, 4^2)$ & $N(20, 8^2)$

std. dev increases ⇒ curve becomes flatter & more spread out

1.64 $N(20, 2^2)$ & $N(30, 2^2)$



Just a translation along the x-axis
